## INDEPENDENT AUDITORS' REPORT

Members of the Township Board  
Township of Orangeville, Michigan

We have audited the accompanying financial statements of the governmental activities and each major fund of the Township of Orangeville, Michigan, as of March 31, 2006, and for the year then ended, which collectively comprise the Township's basic financial statements, as listed in the contents. These financial statements are the responsibility of the Township of Orangeville, Michigan's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly and in all material respects, the respective financial position of the governmental activities and each major fund of the Township of Orangeville, Michigan, as of March 31, 2006, and the respective changes in financial position thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

The budgetary comparison information, on pages 15 through 19, is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The Township of Orangeville, Michigan has not presented the management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of, the financial statements.

**NOTES TO FINANCIAL STATEMENTS**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

The accounting policies of the Township of Orangeville, Michigan (the Township), conform to U.S. generally accepted accounting principles (hereinafter referred to as generally accepted accounting principles) as applicable to governments. The following is a summary of the more significant policies.

*a) Reporting entity:*

The accompanying financial statements present only the Township. There are no component units, entities for which the Township is considered to be financially accountable.

*b) Government-wide and fund financial statements:*

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the Township. The effect of inter-fund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

*c) Measurement focus, basis of accounting, and financial statement presentation:*

The government-wide financial statements are reported using the economic resources, measurement focus, and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources, measurement focus, and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township generally considers revenues to be available if they are expected to be collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

State grants, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when cash is received by the government.

**Township of Orangeville**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):**

*c) Measurement focus, basis of accounting, and financial statement presentation (continued):*

The Township reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the Township, except those required to be accounted for in another fund. Revenues are primarily derived from property taxes and state shared revenue.

The Fire Equipment Fund accounts for purchase of fire equipment; revenue is derived from transfers in from the General Fund.

The Streets Extra Voted Fund accounts for the financial resources used for the operational costs of the Township street functions. Revenues are primarily derived from property taxes.

The Building Fund accounts for the financial resources accumulated for the construction of a new township hall; revenue is derived from transfers in from the General Fund.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed in the government-wide financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board (GASB).

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

*d) Assets, liabilities, and net assets or equity:*

*i) Bank deposits* - Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Pooled interest income is proportionately allocated to all funds.

*ii) Receivables* - In general, outstanding balances between funds are reported as "due to/from other funds." No allowance for uncollectible accounts has been recorded as the Township considers all receivables to be fully collectible.

*iii) Capital assets* - Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, sidewalks, and similar items), are reported in the government-wide financial statements. Capital assets, other than infrastructure, are defined by the Township as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Governments can elect to account for infrastructure assets either retroactively to June 15, 1980, or prospectively. The Township has elected to account for infrastructure assets prospectively, beginning April 1, 2004.

**Township of Orangeville**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):**

**d) Assets, liabilities, and net assets or equity (continued):**

**iii) Capital assets (continued) -**

Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements	15 - 60 years
Equipment	3 - 5 years
Vehicles	3 - 15 years
Roads	5 - 30 years

**iv) Deferred revenue** - In the fund financial statements, governmental funds report deferred revenue in connection with resources that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. As of the end of the current fiscal year, deferred revenue consisted solely of special assessments not available to liquidate current liabilities.

**v) Fund equity** - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

**vi) Property tax revenue recognition** - Property taxes are levied as of December 1 on property values assessed as of December 31, of the prior year. The billings are due on or before February 14, after which time the bill becomes delinquent and penalties and interest may be assessed by the Township. Property tax revenue is recognized in the year for which taxes have been levied and become available. The Township levy date is December 1, and, accordingly, the total levy is recognized as revenue in the current year.

**NOTE 2 - CASH:**

State statutes and the Township's investment policy authorize the Township to make deposits in the accounts of federally-insured banks, credit unions, and savings and loan associations. The Township's deposits are in accordance with statutory authority. At March 31, 2006, the Township had deposits with a carrying amount of \$833,156.

Custodial credit risk is the risk that, in the event of the failure of a financial institution, the Township will not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not covered by federal depository insurance and are uncollateralized. At March 31, 2006, \$690,652 of the Township's bank balances of \$855,835 was exposed to custodial credit risk because it was uninsured and uncollateralized.

The Township believes that it is impractical to insure all bank deposits due to the amounts of the deposits and the limits of FDIC insurance. As a result, the Township evaluates each financial institution with which it deposits funds and assesses the risk level of each institution. Only the institutions with an acceptable estimated risk level are used as depositories.

**NOTE 7 - INTERFUND TRANSFERS:**

The transfer to the General Fund from the Building Fund represents the return of unrestricted monies placed in the Building Fund in prior years for township hall construction.

**Township of Orangeville**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**

---

**NOTE 8 - RISK MANAGEMENT:**

The Township is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation). The Township has purchased commercial insurance for each of these claims and is neither self-insured nor participates in a shared-risk pool. Settled claims relating to commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

**NOTE 9 - DEFINED CONTRIBUTION PENSION PLAN:**

The Township provides pension benefits for substantially all of its full-time employees through a defined contribution plan. The plan covers all full-time employees (over 20 hours per week) and Township trustees. In a defined contribution plan, benefits depend solely on amounts contributed to the plan, plus investment earnings. Employees are eligible to participate from the date of employment. The Township contributes 9% of each qualified employee's base salary to the plan. The Township's contributions are fully vested immediately. The Township made the required contributions of \$3,301 for the year ended March 31, 2006. The Township is not a trustee of the plan, nor is the Township responsible for investment management of plan assets.

**NOTE 10 - JOINT VENTURES:**

*a) Ambulance service:*

The Township participates in Wayland Area Emergency Medical Services, Inc. (WAEMS), to provide ambulance service to its residents. Each participating local unit of government appoints two members to the WAEMS board. Membership does not convey an equity interest in the organization. Total expenditures under this arrangement for the year ended March 31, 2006, was \$6,000.

*b) Gun Lake Area Sewer Authority:*

The Township and three other local units of government participate in the Gun Lake Sewer Authority (the Authority). The supervisor of each local unit serves on the board of the Authority. The Authority was created to maintain, administer, and manage a sewage disposal system for the benefit of the member municipalities. Membership does not convey an equity interest in the Authority. During the year ended March 31, 2006, the Township was not required to make a contribution to the Authority.

**NOTE 11 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:**

*Budgetary information* - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. The budget document presents information by fund, function, and activity. The legal level of budgetary control adopted by the governing body is the function level. All annual appropriations lapse at the end of the fiscal year. Significant budget variations during the year ended March 31, 2006, were as follows:

<u>Fund</u>	<u>Function</u>	<u>Amended budget</u>	<u>Actual</u>	<u>Variance</u>
General	Public safety	\$ 60,450	\$ 83,683	\$ (23,233)
Building	Debt service - principal	-	23,752	(23,752)
	Transfers out	-	130,794	(130,794)
